

HAAS ANNEX TO CONTAIN MODERN RESTAURANT AND HOME OF EAGLES.

Building Damaged by Fire to Be Fitted Up With Attractive Apartments at Cost of Several Thousand Dollars. Work Will Soon Start.

The finest quarters of any lodge in Western Pennsylvania will be occupied by the Connellville aerie of Eagles when the present plans of Andrew Haas are realized. Mr. Haas proposes to rebuild and remodel the old Haas Annex, which was almost destroyed by fire over a year ago. The specifications are already in the hands of Contractor Cooper Patterson and work will begin as soon as these have been revised to the taste of the Eagles who are to occupy the upper floors of the building.

The old building, of which only the walls remain intact, will hardly be recognizable when the plans of Mr. Haas bear fruit. The new structure will be three stories in height, the same as now, but will tower many feet above the old building. It is proposed to use the entire first floor for a first class restaurant. The entire front part of the main floor will be turned into one big dining room for general patronage. In the rear of the main floor there will be a private dining apartment for the exclusive of ladies and their escorts. Mr. Haas will only let the contract for this part of the building to some one willing to conduct a first class establishment, of which the town stands badly in need.

The second and third floors are to be occupied by the Fraternal Order of Eagles. On the second floor the club rooms will be located. The plans for these have not yet been modeled to suit the Eagles, but Mr. Haas stated today that he is willing to provide any arrangement that might be suggested or desired by the tenants. A big dance hall will take up most of the third floor of the building, with a portion of it reserved for apartments in which the lodge meetings will be held.

Arrangements will be provided for a small elevator in the rear for the use of the Eagles in case they do not care to employ a chef. In that event a restaurant on the ground floor will be in a position to fill the order for eatables that might emanate from any hungry Eagle. An arrangement of this kind will mean a big saving for the lodge, as the maintenance of a restaurant is generally costly.

Mr. Haas is of the opinion that his site is ideal for the purposes he intends it. It is centrally located and easy of access. The building is located on South Arch street, but a few steps from its intersection with Main. The proposition has been hanging fire some months. Mr. Haas, who is an enthusiastic Elk, was anxious for that order to take up his proposition. This site would have been taken, but for the fact that the Elks already own their home on East Main street.

PITTSBURG PIRATES WILL NOT PLAY HERE.

Wanted Game in Connellville Monday and Uniontown Tuesday But Time Was Too Short.

The Pittsburgh Pirates will not appear in Connellville. It was the intention of Fred Clark and his crew to come here. In fact late yesterday afternoon they sent a communication to the effect that they could get Monday and Tuesday to Connellville and Uniontown. This was too short notice, however, and it was necessary to call off the game here this season.

The Pirates are not going to make a post-season barnstorming trip this year. Tomorrow they appear in Wheeling and it had been their intention to play in Connellville on Monday and Uniontown on Tuesday. On account of the heavy guarantee demanded by the team and the short time in which to advertise the games and gather an opposing team it was decided not to bring the near-champs here this fall.

PLENTY OF GAME.

Local Sportsmen Meet With Success in the Mountains. Flushed with success in hunting game in the mountains of Stewart township, near Ohiopyle, Walter Johnson and V. Young returned to town this morning.

They were out a couple of days and during that time got three coons, one fox, 19 squirrels and some ground-hogs. Their luck was better than that of many hunters who took to the woods lately.

Town Getting Better.

Only one arrest was made by the police during the night. The offender, who was charged with public intoxication, left a four foot and failed to appear in police court this morning.

POLITICAL KETTLE IS BEGINNING TO BOIL MERRILY IN COUNTY AS ELECTION DRAWS NEAR.

Democrats Are Endeavoring to Stir Their Members to Action and Will Hold Meeting Here—Prominent Speakers at Ohiopyle Today—Garland Will Speak at Brownville and Candidates Are at Smithfield Meeting.

A meeting of the Democratic County Executive Committee was held yesterday afternoon in the office of D. W. McDonald. It was agreed at the conference that it was necessary to "get busy" immediately. The various committees reported that there was no enthusiasm at all, and the Democrats seriously knew that a presidential election was soon to take place. It was decided that a series of meetings should be held. Purposes A. D. Sullivan was directed to arrange for a Connellville meeting next week, and it is likely that he gathering will take place in the Seaton Theatre next Friday evening. The meeting will be addressed by county officers. Later it is proposed to have a whole day of campaigning in the town, starting bright and early. Several brass bands will be engaged and the meeting at Washington Hotel, candidate for Congress, has already started to count the vote. He thinks the Socialists will swamp the Republicans this time and come under the wire in third place on the National ticket. He is hearing this year and the party will receive 3,000,000 votes, "and God knows how many more." More conservative estimates say that 1,000,000 is a plenty.

Big Meeting at Ohiopyle. Stewart township voters this afternoon will have an opportunity of hearing the issues of the campaign by able speakers in the big hall on the corner of Third and Main streets. Hon. A. P. Cooper, congressman at large, Jas. S. Hecox, of Greensburg, John R. Byrne of Uniontown, Attorney Lee Smith of Uniontown and others will address the gathering.

The party went to Ohiopyle this morning on train No. 48, arriving there at 9:30 o'clock, although the speaking will not take place until 2 o'clock this afternoon. It is expected that there will be an exceptionally large gathering, as many of the residents of the township come to Ohiopyle on Saturday and Sunday to enjoy a day over for the speaking this afternoon.

Garland to be at Brownville. County Chairman P. A. Johns has received word from Henry F. Walton, Chairman of the State Committee on Speakers, that M. M. Garland, who was so enthusiastically received at Brownville, will be able to attend the Brownville meeting next Saturday. Attorney H. P. Hopwood has also promised to deliver an address. The County Committee hopes to make this meeting an especially interesting one, as it is one of the three big gatherings to be held in the county.

Interest in Masontown Meeting. President Byrne of the Mason County Republican Club expects to be able to announce the names of the speakers for the Masontown meeting, October 17, within a few days. This meeting will be similar in every respect to the one held in Vanderbit, and will be attended by the club members in uniform. They will go in special cars from Uniontown.

Colored Democrats Organize. A colored Bryan Club has been formed at Uniontown with Dr. J. T. Whitson, President; Wallace Haas, Secretary; Lew Grouner, Treasurer, and Walter Jones, Sergeant-at-Arms. Dr. Watson made a long speech endorsing Bryan and his policies. The club was formed with the able assistance of the Democratic campaign managers.

Old Soldier Endorses Cooper. Elijah Johnson, an old soldier who served in Company K, Second Connellville Heavy Artillery, in an open letter for severely endorsing the candidacy of Congressman Allen V. Cooper, saying that not only he but five other members of the family will vote and work for him at the coming election.

S. M. GRAHAM LEAVES ESTATE TO WIDOW.

Will Made in Bellevue Sixteen Years Ago Bequeaths All His Property to Her.

UNIONTOWN, Oct. 10.—This late Samuel M. Graham, banker and capitalist of Uniontown, who died about two weeks ago after receiving fatal injuries in an automobile accident, executed his last will and testament 16 years ago. This developed when the document was admitted to probate this morning.

Graham's signature on the will was witnessed by William Hunting and John S. Brown, both of whom have been dead for some time past, and it was necessary for their signatures to be verified before the paper was admitted.

Mr. Graham, who was a merchant of Belvedere at the time he made the will, left everything to his wife, who has been married to him since 1892. He is thought to be very strong with the concrete support of the most notorious political corruption which has existed in Delaware. He has the warm support of President Roosevelt and is expected to make a strong bid for the place. Graham worked himself from coal beginning to the top of the ladder in commercial activities. He has a fine estate which is the property of his Connellville.

PRISONERS TAKEN TO REFORMATORY.

Deputy Sheriff Driver Six Men to Huntingdon Institution Today. Sentenced Last Term.

UNIONTOWN, Oct. 10.—Deputy Sheriff C. M. Fox and Joseph King this morning took six prisoners to the Huntingdon reformatory where they will serve out the sentences imposed at the last term of the Fayette county courts.

The prisoners were Charles Florenzo, who killed Antonio Rongione, Harry Berry, star witness against William Minney, hanged for murder, who was sentenced for stealing chickens, George H. Carr, Hunsel Cooley and Roy Rouscher, convicted of horse stealing, and William Logan, convicted of larceny.

New Judge Named. Finley Woodward has been appointed Judge of the Election Board in Danmar township, No. 5. He succeeds George D. Graham, who moved from the district.

FINAL DETAILS IN COAL DEAL CLOSED; BIG PLANT TO BE BUILT.

Immense Tract in Green County Secured and Development Will Start at Once—Known as New Connellville Coal & Coke Company.

Special to The Courier. UNIONTOWN, Oct. 9.—George M. Hosack, Esq., the well known Pittsburgh attorney, was here last evening closing up the final details of the purchase by himself and others of 2,800 acres of Green county land from A. V. Thompson and B. H. Ruppert. The price paid for the tract was \$250 per acre, the deal aggregating three-quarters of a million.

The purchasers, comprising R. P. Duran, J. H. Sanford, J. T. M. Stone, George M. Hosack and others of the Carnegie Coal Company have organized a company with a capital stock of \$1,000,000. The new company will be known as the N. W. Connellville Coal & Coke Company. It will begin at once the work of developing the property. Coke ovens will be erected and a railroad connection established. A town will be built and will be named New Connellville.

The coal tract lies in Washington township, Green county. The coal is of excellent cooking quality and adjoins the coal recently bought by Julian Kennedy and others. It is adjacent to Buff's Creek village.

"You will begin developments at once," asked the representative of The Courier.

"Not until after election," was the significant reply, "but," added Mr. Hosack, smilingly, "we expect to get to work then."

LOCAL OFFICIAL NAMED ON BOARD.

J. W. Brown of West Penn Is Appointed on Important Committee.

Superintendent of Transportation Will Appear Before State Railroad Commission When Trolley Regulations Are Considered.

Superintendent of Transportation J. W. Brown of the West Penn Railways Company, it is said, has just been notified of his appointment as a member of the committee of seven which will be consulted by the State Railroad Commission when trolley regulations are considered. This is a signal honor for Mr. Brown as he is the only official in Western Pennsylvania who was named.

The creation of the committee was made at the suggestion of the Commission which recognized how unwieldy it would be to have every road in the State represented at the hearings where the trolley interests were at stake. Accordingly, the President of the Pennsylvania Street Railways Association was directed to appoint seven men to be consulted by the Commission in matters concerning the trolley code.

Official announcement of the committee has not yet been made. When today Mr. Brown had little to say concerning the report, but admitted that he had been appointed. The State Railroad Commission was created at the last session of the Legislature and began its work on January 1, last. Judge Nicholas Ewing of Philadelphia is its chairman.

The appointment of Mr. Brown came as a complete surprise to him. He is barely acquainted with the President of the State Association of Street Railways and had no previous knowledge of such a committee being considered.

Throughout the coke region Mr. Brown is considered as the most efficient railway official. The high standard maintained by the employees of the transportation department is primarily due to Mr. Brown's untiring efforts.

COULD NOT AGREE ON BASIS FOR RATES.

Underwriters and Insurance Men Adjourn After Two Days Meeting to Convene Next Week.

The meeting of the local insurance agents with the underwriters adjourned last evening with no conclusion being reached. For two full days the men were in session and many details were gone over. The two sides could not complete their labors and reach any agreement on the new rates so it was decided to try it over next week.

As many of the underwriters found it necessary to return home and adjust losses, the meeting went over until next week. They will probably hold another session on next Tuesday.

To Discuss New Synagogue. A meeting of the local Jews will be held tomorrow evening at 8 o'clock in their room on Third street, New Haven regarding the erection of the new synagogue. All members of the congregation are urged to attend.

WILL WARN MINERS AGAINST BLACK DAMP.

Institute to Be Held at Scottsdale Y. M. C. A. Building on Next Saturday Evening.

SCOTTSDALE, Oct. 10.—A mining institute will be held at the Scottsdale Y. M. C. A. rooms on Saturday evening, October 17. The institute will be held in connection with the mining class to be conducted in the association night school during the winter. The subject for discussion at the institute will be "Black Damp." W. J. Easton, mine foreman at Southwest No. 3 mines, will open the discussion with a paper, after which there will be a general discussion of the subject.

As black damp is one of the greatest dangers encountered by the men who delve in the mines, a discussion of its various features by experts will be of a great interest and benefit to all who attend. There will be no admission fee charged, but it will be necessary to have a ticket to secure admission. Tickets can be secured by Secretary Grief at the association rooms, W. H. Glasgow of the Frick offices or P. H. Glenn.

A series of similar institutes will be held at the association rooms during the winter and at each one some topic of particular interest to those engaged in the work of mining or caring for mines will be discussed.

BACHELORS WANT TO PLAY GAME OVER.

They Will Be Accommodated by Benedict on Next Wednesday When Dispute Will Be Settled.

Manager Sam Plunkett of the Bachelors announced this morning that the disputed game between his team and the Benedicts will be played off next Wednesday. The Benedicts claim the contest and are sustained by the umpires and official scorer but they also believe they can beat the single fellows any day in the week. Hence their willingness to play off the dispute.

Efforts will be made to play the full nine innings but unless Manager Plunkett is gagged and good umpires officiate there is little chance. When it comes to protesting decisions Plunkett has Mugsy McGraw and Malachi Kittredge stopped to a finish.

NEIL SENT TO JAIL.

Man Who Assaulted Girl Is Given Hearing by Magistrate Clark.

William Neil, the negro who attempted a criminal assault upon Sherrita Davis, the young colored girl employed in the home of John Kurtz on the South Side, was given a hearing before Justice of the Peace Clark yesterday afternoon.

After hearing the evidence in the case Justice Clark committed him to jail to appear at the December term of criminal court, Neil being unable to secure bail.

The Davis girl testified against the negro. She showed marks of her encounter with him, one eye being badly discolored.

FOOTBALL SEASON OPEN.

High School Plays Mt. Pleasant High Here This Afternoon.

The High School football season will open this afternoon with a contest against the Mt. Pleasant High School team. Coach Ritchie reports his men in the best of trim. They have been at practice every afternoon this week, during which time new players were received and old ones perfected.

The locals expect to make a good showing against the Mt. Pleasant boys, who are always dangerous.

The Daily Courier.

SUBSCRIPTIONS.
DAILY, \$3.00 per year; 5c per copy. WEEKLY, \$1.00 per year; 5c per copy. PAY NO MONEY to carriers, but only to collector with proper credentials. Any irregularities or carelessness in the delivery of papers and in the home by the carriers in Connelville or our agents in other towns should be reported to this office at once.

ADVERTISING.
THE DAILY COURIER has double the circulation of any other daily newspaper in Fayette county or the Connelville coke region and is better distributed for general advertising. It is the only paper that presents each week sworn statements of circulation. The Connelville coke trade is an important medium for such interests.

SATURDAY EVENING, OCT. 10, 1908.

RECENT BIG COAL DEALS AND THEIR LESSON.

Another Greene county coal deal aggregating three-quarters of a million indicates substantial confidence, not only in the future of that coaling coal field, but also in the election of a Republican President and Congress in November next.

Why Greene county should remain a Democratic county in the face of the fact that her development and prosperity is threatened by Bryan and secured by Taft is assumed to understand unless it is determined that the Greene county people are steeped in bias or deficient in intelligence.

We cannot think the latter assumption is correct, nor can we imagine how the former should long remain when intelligence is at hand to combat it. Democratic ascendancy is doomed in Greene county. It will be run down by the railroad, buried in the coal mines or buried up in the coke ovens.

In the meantime it will be well for the voters of Fayette county as well as those of Greene county to remember that while capital has been confident enough in the future to purchase upwards of four million dollars' worth of Greene county coal within the past few months it has curiously refrained from spending any considerable sums in the development of this coal, and it is no secret that the delay is merely a matter of business prudence. Development is evidently contingent upon a continuance of Republican politics.

The Greene county coal deals are in themselves a foreboding omen in politics which every voter who values his individual prosperity will be wise to profit by.

A GRIM JEST OR A VAIN DELUSION.

Colonel Bryan has the supreme opportunity to call himself, "the advance agent of prosperity." He is either a grim jester or the victim of a vain delusion. He is the advance agent of the Soup House, the herald of the Army of the Unemployed, the trumpeter of hard times.

"Wait till Bryan is elected; there'll be plenty of work," said a local politician to a workman within our hearing a few days ago. The politician knew better. Like his master, he would sacrifice the happiness of thousands to attain selfish personal ambitions and reap worldly private gains.

The Common People who heed those promises will repeat in bitterness. Nothing is better established than the fact that Bryan's ideas of government are subversive to national prosperity. They have been uniformly so ever since his first entry into politics in 1876. During all these years the star of reform has concealed the form of a demagogue. We will not say that Bryan is a rascal, but we do say that he was not honest with himself and the people when he clung to his Free Silver propaganda for years after its falsity had been proven by actual experience. An honest and courageous man would have acknowledged his error in many and patriotic fashion.

The mistakes of Bryan would fill a big book, and the fact that he has made them and persisted in them when they have been demonstrated to be errors, has lost him the confidence of the business world. Nothing is more foolish than capital. With Bryan in the White House, money will be hoarded, business will stagnate, manufacturing interests will slow down or suspend, the conditions of last winter, from which we are slowly drawing away, will be upon us again worse than ever. There will be plenty of idleness instead of plenty of work under Bryan.

The workman who harks to the Bryan demagogue preaching the necessity of a "change," will be wise to heed it not. The change will be a change for the worse and not for the better. The politics that spells prosperity is the best politics for the People be they Common or Uncommon.

William Howard Taft has the confidence of the business world. If he is elected it is conceded that business will go forward. All the situation lacks now is confidence. It contains

THE STATE OF TRADE.

Business Improving in Spite of the Political Campaign, and IF THE ELECTION GOES RIGHT A Widespread Improvement Will Follow Without a Doubt—Tariff Agitation Will Not Seriously Interfere. The European War Scare.

DEMOCRACY'S "TIME TO GET BUSY."

The Democratic organization of Fayette county held a meeting yesterday and solemnly resolved that it was "time to get busy." It is the intent of this determination to make a sufficient showing to hold the organization together for future purposes it is perhaps a wise one, but if it is born of any hope of carrying this county for Bryan and the Democratic ticket it is but vanity and vexation of spirit.

The material interests of Fayette county are so inseparably interwoven with the politics of the Republican party that even the most ardent of its adherents find it difficult to persuade the voters to risk their prosperity to gratify a caprice, nor will it be this year.

The apathy which has enveloped the Democratic party of Fayette county since it raised a pole up in Springfield township some weeks ago has been so paralyzing that even John Lester Ketter has ceased to thunder Bryan Democracy in the columns of the Uniontown Genius, and when Editor Ketter loses heart there isn't much hope.

THE FOREST FIRES AND THEIR CAUSES.

The efforts of the fire wardens assisted in some slight degree by a slight sprinkle of rain have succeeded in checking the ravages of the mountain fires which threatened the destruction of much valuable timber and more young growth which promises a measure of reforestation no less valuable.

Mountain fires in the fall of the year are commonly caused by two agencies, the railroad locomotive with its sparks and the careless hunter with his matches and powder. It is difficult if not impossible to entirely suppress both agencies, but more strict requirements in the equipment of the one and more stringent punishment of the other might greatly minimize the damages to the country caused by their neglect and carelessness.

The woods and streams demand better protection against acts of carelessness, maliciousness and vandalism.

A QUESTION OF INTERPRETATION.

The News has been running around that extensive "law library" is boasted of, and has evolved the following in consequence:

A suggestion made by a contemporary to the effect that the constitution question be submitted to the voters at a "special election" to be held sometime between this and the coming February election, is somewhat out of order. The law, as cited in the News, permits the holding of an special election for such purposes. Whether such a special election is either general or municipal.

It is true that the law permits no special election within ninety days of any regular election, but does not forbid the holding of such special election within ninety days AFTER a general election.

The legal editor of The News is respectfully invited to think it over again.

Disappointed nutting parties demand that the name of Chestnut Ridge be changed. It isn't the fault of the ridge, however, but of the profane man who has cut down nearly all the chestnut trees.

West Penn managers seem to be experts in their lines judging from the prominent positions they take in quarrels and associations representing street railway and electric fighting interests. They have always been suspected of knowing their business well.

Building operations have never been wholly suspended in Connelville, but they seem to be going along better than ever in spite of the depressing effect of politics upon business in general.

Mayersdale turned out on mass to dedicate its new school building. The community which holds the cause of the common schools high, cannot fail to be progressive as well as intelligent.

Canonsburg is becoming a "dry town" physically as well as morally.

The fight for more equitable fire insurance rates ended in a draw, but we hope to win it in the next round.

Pastor Barnes is still in politics, without his own or the church's consent.

The litigation over the profits of the Percy mine suggests the fact that if the Connelville coke region mines all hold out as well as the old Percy pit it will be a very long time before the Connelville coke region is exhausted.

Game is reported to be plenty in the mountains. So are careless hunters with pipes and matches.

The Eagles contemplate changing their roost.

New Connelville will probably be the center of the Greene county coke region.

The mooring of the Moose is beginning to be heard in Calatowen.

The material interests of Fayette county are so inseparably interwoven with the politics of the Republican party that even the most ardent of its adherents find it difficult to persuade the voters to risk their prosperity to gratify a caprice, nor will it be this year.

The apathy which has enveloped the Democratic party of Fayette county since it raised a pole up in Springfield township some weeks ago has been so paralyzing that even John Lester Ketter has ceased to thunder Bryan Democracy in the columns of the Uniontown Genius, and when Editor Ketter loses heart there isn't much hope.

The efforts of the fire wardens assisted in some slight degree by a slight sprinkle of rain have succeeded in checking the ravages of the mountain fires which threatened the destruction of much valuable timber and more young growth which promises a measure of reforestation no less valuable.

THE FOREST FIRES AND THEIR CAUSES.

The efforts of the fire wardens assisted in some slight degree by a slight sprinkle of rain have succeeded in checking the ravages of the mountain fires which threatened the destruction of much valuable timber and more young growth which promises a measure of reforestation no less valuable.

Mountain fires in the fall of the year are commonly caused by two agencies, the railroad locomotive with its sparks and the careless hunter with his matches and powder. It is difficult if not impossible to entirely suppress both agencies, but more strict requirements in the equipment of the one and more stringent punishment of the other might greatly minimize the damages to the country caused by their neglect and carelessness.

The woods and streams demand better protection against acts of carelessness, maliciousness and vandalism.

A QUESTION OF INTERPRETATION.

The News has been running around that extensive "law library" is boasted of, and has evolved the following in consequence:

A suggestion made by a contemporary to the effect that the constitution question be submitted to the voters at a "special election" to be held sometime between this and the coming February election, is somewhat out of order. The law, as cited in the News, permits the holding of an special election for such purposes. Whether such a special election is either general or municipal.

It is true that the law permits no special election within ninety days of any regular election, but does not forbid the holding of such special election within ninety days AFTER a general election.

The legal editor of The News is respectfully invited to think it over again.

Disappointed nutting parties demand that the name of Chestnut Ridge be changed. It isn't the fault of the ridge, however, but of the profane man who has cut down nearly all the chestnut trees.

West Penn managers seem to be experts in their lines judging from the prominent positions they take in quarrels and associations representing street railway and electric fighting interests. They have always been suspected of knowing their business well.

Building operations have never been wholly suspended in Connelville, but they seem to be going along better than ever in spite of the depressing effect of politics upon business in general.

Mayersdale turned out on mass to dedicate its new school building. The community which holds the cause of the common schools high, cannot fail to be progressive as well as intelligent.

Canonsburg is becoming a "dry town" physically as well as morally.

The fight for more equitable fire insurance rates ended in a draw, but we hope to win it in the next round.

Pastor Barnes is still in politics, without his own or the church's consent.

The litigation over the profits of the Percy mine suggests the fact that if the Connelville coke region mines all hold out as well as the old Percy pit it will be a very long time before the Connelville coke region is exhausted.

Game is reported to be plenty in the mountains. So are careless hunters with pipes and matches.

The Eagles contemplate changing their roost.

New Connelville will probably be the center of the Greene county coke region.

The mooring of the Moose is beginning to be heard in Calatowen.

The Sabbath Observance school is usually the man who hark six days in the week. Sunday has a different aspect to the man who knows no other day of rest, but it has a moral but a reasonable Sabbath.

THE STATE OF TRADE.

Business Improving in Spite of the Political Campaign, and IF THE ELECTION GOES RIGHT A Widespread Improvement Will Follow Without a Doubt—Tariff Agitation Will Not Seriously Interfere. The European War Scare.

DEMOCRACY'S "TIME TO GET BUSY."

The Democratic organization of Fayette county held a meeting yesterday and solemnly resolved that it was "time to get busy." It is the intent of this determination to make a sufficient showing to hold the organization together for future purposes it is perhaps a wise one, but if it is born of any hope of carrying this county for Bryan and the Democratic ticket it is but vanity and vexation of spirit.

The material interests of Fayette county are so inseparably interwoven with the politics of the Republican party that even the most ardent of its adherents find it difficult to persuade the voters to risk their prosperity to gratify a caprice, nor will it be this year.

The apathy which has enveloped the Democratic party of Fayette county since it raised a pole up in Springfield township some weeks ago has been so paralyzing that even John Lester Ketter has ceased to thunder Bryan Democracy in the columns of the Uniontown Genius, and when Editor Ketter loses heart there isn't much hope.

BRYAN PICTURED AS QUACK DOCTOR.

Gov. Hughes Ridicules Remedies of the Commissioner.

HE URGES THEIR REJECTION.

Bryan Declares Himself "Advance Agent of Prosperity"—Says Taft Would Be Powerless to Institute Reforms.

Webb City, Mo., Oct. 10.—Starting through Southeastern Kansas along the borders of Oklahoma, Governor Hughes of New York urged the defeat of the Democratic candidate for president among the employees of oil wells, smelting works, farmers and zinc miners. To the workmen Governor Hughes asserted that an attempt by Mr. Bryan, if elected, to introduce his campaign proposals would inevitably result in financial depression and a closing of industry, while the Republican platform promised a continuance of present prosperity. Speaking on "Dr. Bryan and his nostrums" before a large audience in Webb City, Governor Hughes said:

"Twelve years ago Uncle Sam was sick and there came bustling up a physician who wanted to prescribe for him. He had an attractive personality; he was a fluent talker. If anyone could sell a patent medicine he could. Uncle Sam said: 'What is it you want to give me?'"

"The doctor said: 'You must take free silver, 16 to 1; that is absolutely necessary for your recovery. If you don't take it you will die.'"

"Uncle Sam is careful and he said: 'We'll take this into the laboratory and we'll analyze it and see what it is.'"

"They took it in and they found it was rank poison. So Uncle Sam consulted Dr. McKisley and took a tonic and he has been vigorous ever since."

"A few years later the same doctor came around again. Uncle Sam said: 'Aren't you the man that nearly killed me a few years ago?' And it appeared that he was the same. Uncle Sam thought that he did not want any of that. And the doctor said: 'We must find a new remedy,' and he traveled around the world and came back with great prestige and said to Uncle Sam: 'What you need is government ownership of railroads.'"

"Uncle Sam threw up his hands and said: 'We can't stand that.' And so we have now some new proposals and they are just as dangerous as those offered to Uncle Sam. There are various proposals, some of minor importance and some of great importance. One of the chief proposals that directly affects the business of the country is that there should be a prohibition preventing any manufacturing concern from making more than 50 per cent of any article produced in the United States. Imagine what would be the effect if any arbitrary prohibition of that sort were put into our statutes."

"Now, if we are going to have prosperity in this country we cannot afford to experiment with nostrums. We must have wise and experienced leadership and policies that uphold and conserve. My faith in Mr. Taft and in the Republican policies prompted me to come out here to support them."

Bryan Addresses Multitudes.
Galesburg, Ill., Oct. 10.—Standing on the same platform from which Mr. Taft only a few days ago delivered an address, W. J. Bryan denounced President Roosevelt for participating in the campaign in behalf of Mr. Taft, asserting that Mr. Taft could give no promise of real reform and attacked the Republican party, for, as he charged, its injustice to the laboring man and the people generally.

When the special train bearing the presidential candidate pulled into the station a great crowd cheered him vociferously, but upon his arrival at Knox college, where the platform was erected, he faced one of the largest audiences that ever assembled here.

Mr. Bryan said that justice had been his theme twenty-eight years ago and justice was his theme today. He said he would try to show how on several different questions the Democratic party was appealing for justice. He then spoke concerning publicity of campaign contributions before election and ridiculed Mr. Taft for expressing a "personal inclination" toward that proposition and not coming out squarely for it. Following a denunciation of Speaker Cannon and Mr. Sherman, the Republican vice presidential nominee, for sitting in the house of representatives legislation that would benefit the people, he took up the labor question. The crowd was moved to rousing cheers when he declared that the Democratic party insisted upon justice to those who toil.

Quotes Abraham Lincoln.
"The Republican party," he said, "has a lowed the lobbyists of great corporates to stifle labor legislation," and he informed his hearers that the Democratic party's remedy was to deal with the laboring man as a human being and not as a mere piece of merchandise.

"We are not willing," he said, "that a man made in the image of his Creator, with heart and brain and soul, shall be degraded to the level of dollars and cents. That great statesman who was engaged in debate in this

place in 1858, Abraham Lincoln, a year after he spoke here wrote a letter to some people in Boston and in that letter he said that the Republican party believed in the man and the dollar, but that in case of conflict it believed in the man before the dollar." Mr. Bryan said that the Democrats believed that that was the proper relation between money and men. He then spoke at some length in support of the proposition to grant trials by jury in cases of indirect contempt.

Advance Agent of Prosperity.
Mr. Bryan announced himself as "the advance agent of prosperity" and bitterly assailed the president and Mr. Taft as a member of his cabinet for the year of 1907. He declared that there never was a better time than now for the Republicans to predict a panic should he be elected. They could never do the people in 1896, he said, but now they could.

He closed with a severe arraignment of the president for interfering in a fair fight between himself and his Republican opponent. Mr. Roosevelt, he said, has had seven years and now he is trying to control another term. Justice, he declared, demanded that the president cease meddling in his official duties to further the candidacy of his appointee.

Cincinnati, Oct. 10.—W. H. Taft and President Roosevelt will have a consultation in Washington, where the candidate will spend Sunday, Oct. 11, in arranging his future work in the campaign, which was the task the candidate devoted himself. It was found more convenient than otherwise that the Sunday in question should be spent in the national capital and probably much of that day will be spent at the White House.

After the three days in Ohio, Tuesday and Wednesday of next week, Mr. Taft will turn his attention to the south, remaining three days of the week. The Ohioan let it be known that he was in no sense "chasing rainbows." In his intended tour of the south but had heretofore made promises that should be go on the stump he would speak in certain southern cities. He will keep these promises. They include speeches at Louisville, Ky., Oct. 15; Chattanooga, Knoxville and Bristol, Tenn., Oct. 16; Greensboro, N. C., Oct. 17, and Richmond, Va. The speaking at Richmond will take place Saturday night and at its conclusion the Taft special will make for Washington to remain until Monday morning.

It has been decided that Newark, Trenton and Camden, N. J., shall have the candidate for meetings on Monday, Oct. 19, after which he will return for a night meeting in Baltimore and then turn westward again, speaking the next day in West Virginia and then devote Oct. 21 to Ohio and the succeeding three days to Indiana.

\$20,000 DONATED BY LAIRD O' SKIBO.

Andrew Carnegie Makes Big Contribution to Republican Campaign Fund.

New York, Oct. 10.—The fact that Andrew Carnegie has contributed \$20,000 to the campaign fund of the Republican national committee is announced by State Chairman Woodruff. Mr. Woodruff also announced that Mrs. Russell Sage has contributed \$1,000 to the same fund. There have been no other large contributions from individuals. Mr. Woodruff said, but small sums are coming in from various sources.

George H. Sheldon, treasurer of the national Republican committee, when asked about the contributions, declined to discuss them, saying that he would publish a list of all the contributions made to the Republican committee after election.

An appeal for contributions to the Republican national campaign fund of \$50 each from 10,000 business men has been issued by Mr. Sheldon.

New York, Oct. 10.—The Democratic national committee is preparing to announce next week the amount of its campaign fund and the individual contributions of amounts of \$100 and over, and the lists, which have been compiled to date and sent here from Chicago, show that the campaign fund is a little more than \$220,000. Of this fund something more than \$150,000 has been collected from contributors, which, with \$42,000 of the Denver convention fund, is the total fund now in the Democratic treasury.

It is learned that there have been fourteen individual contributors of \$1,000 each. There have been no contributions of sums between \$1,000 and \$500 to date. The Denver headquarters of the national committee has collected \$5,000, which is said to include a check of \$1,000 from former Senator William A. Clark of Montana. The smallest contribution received was one cent, which came in the mail from Monroe, Wash.

Chicago, Oct. 10.—National Chairman Muck said that he did not know that the New York headquarters had made public any campaign contributions or the amount of the campaign fund. "The campaign contributions will be made known officially on Oct. 15, and all I can say is that I wish we had all the money they say we have."

Battleships Start For Japan.
Manila, Oct. 10.—The sixteen big battleships of the Atlantic fleet are now en route to Japan. Sailing orders were given by Rear Admiral Charles N. Sigsbee of the fleet to depart two hours earlier than the announced time, and only this morning the battleship Connecticut got under way. Half an hour later all of the great ships were in motion and followed the Connecticut down the bay.

It Is Impossible to Lose

By the proposition made through the Citizens National Bank of Connellsville of giving the small investor an opportunity of making 35 PER CENT. INTEREST

The investor does not bind himself by any promise. All that he does is to deposit his money in the Citizens National Bank receive a certificate of deposit and wait for one year for the development of a manufacturing plant in Connellsville. If it is satisfactory and does what is expected the privilege of investing is given. If the investor is not satisfied he can withdraw his money the same as if it were deposited in any other bank.

To have the ready money to make extensive expansion in one year is the object of soliciting investments. In the mean time the plant is busy at work on a standard product and can be seen any day. It is backed by some of the most stable of Fayette county business men who have put their money into it expecting to receive 35 per cent.

With many orders ahead the plant is now busy at work and it is expected to have orders ahead all the time and a great profit made the first year, but the second it will be greater and this is what you are preparing yourself for if you are satisfied at the end of a year that it is all that has been claimed for it. If not withdraw your money. You have all to gain and nothing to lose, no promise to make or obligation to fulfill. The proposition is open to the closest investigation. Call or write the bank for particulars and be convinced that it is an opportunity not to be disregarded.

GIRL MURDERED, FIANCE IN PRISON.

Marriage License and Tracks of Horse Figure in Case.

BRIDE-TO-BE SHOT TO DEATH.

Body Found in Road With Two Bullets Through the Head—Police of Wadsworth, O., Hard at Work on Mysterious Murder.

Wadsworth, O., Oct. 10.—With unusual energy the police authorities are endeavoring to unravel the mystery of the murder of Ora Lee, twenty-one years old, a handsome factory girl, whose body, pierced by two bullets, was found on the road between Wadsworth and the hamlet of Custard Hook. Guy Rasoer, the man whom Miss Lee was to have married today, is detained by the sheriff pending developments of the police investigation. Rasoer denies all knowledge of the tragedy and in support of his denial exhibits a marriage license procured at Wadsworth on the 24th.

The body of the young woman was found by Charles Rasoer, a cousin of Guy Rasoer, as he passed along the road in the early hours of the day. Two bullets had entered the girl's skull, one piercing the forehead, while the second entered through the back of the head.

No positive motive for the murder of the pretty young woman yet has come to light. The band of farmers, led by Marshall Bricker, that hurried to the scene of the murder as soon as word of the tragedy was received met Guy Rasoer on the road walking toward Wadsworth.

The police theory is that Miss Lee was killed while running in a buggy with a male friend. The principal clue that led to the detention of Guy Rasoer is the fact that along the road where the murder was committed are plainly seen the tracks of a horse with one shoe missing. An examination of the stables at the Rasoer home disclosed the fact that one of Rasoer's horses has a shoe missing from one of its front feet. Rasoer refused any explanation concerning this feature of the case. He declares he can prove an alibi.

Another police theory is that a rival for the affections of Miss Lee may have shot the girl on learning of her approaching marriage to Rasoer.

Miss Lee left Wadsworth ostensibly to prepare for her wedding. When the body was found the hands were folded over the breast and the legs stretched out as if the corpse had been carefully arranged after death. The girl's suitcase was on the ground beside her. Her handbag was still on her right wrist, and in her left hand she carried a handkerchief. There was no evidence of a struggle. A hundred yards from the body tracks in the dust indicated where a horse and buggy had been tied to the fence.

Rasoer apparently is bowed with grief. He declares the last time he saw his fiancée was Friday night, when they were driving

King Alfonso in Auto Wreck.
Phaenicia, Spain, Oct. 10.—The Spanish royal automobile was ditched here today as the result of a tire burst. King Alfonso was uninjured but two of his aids were badly bruised.

MILLS RESUMING WORK

Dun's Review of Trade Notes a Substantial Improvement.
New York, Oct. 10.—Dun's Weekly Review of Trade says today:

"Substantial progress toward industrial recovery was made during the week, a very large number of wage earners resuming work in mills and factories that had been wholly or partially idle for many months. Yet resumption is by no means uniform, many undertakings being deferred until after the election, and low water is still the cause of short time at numerous plants. Retail trade at many points has decreased with the higher temperature and the religious holiday, although some sections show a fairly general distribution of fall and winter wearing apparel and payments are a little more prompt."

"Contracts for finished steel are restricted to current needs, but a large tonnage is under negotiation. New projects are deferred until after election, when much business will be placed. Confidence is shown by the steadiness of prices and the gradual increase in pig iron production. "Byproducts accumulate that stocks of dry goods are low. Most beyond precedent and the urgency for quick shipment tends to generate confidence among buyers, who show a disposition to anticipate requirements in the primary market for cotton goods."

Chicago Grain Market.

Chicago, Oct. 9.—A war scare caused an advance of more than 1 cent in the price of wheat on the local exchange today, but later realizing sales materially reduced the gains, and quotations showing advance of 1/8 cent. Corn, oats and proteinous closed easy. December option closed: Wheat, 100 1/2 @ 101; corn, 61 1/2; oats, 49 1/2.

DETROIT BASEBALL MAD

Tigers and Cubs Play First Game For Championship.

De roit, Oct. 10.—The opening of the battle for the world's championship finds both the Detroit American league and the Chicago National league team in excellent condition and filled with confidence that victory is to be their portion. Every indication is that the opening of the series at Bennett park this afternoon will be under the most auspicious circumstances. Baseball enthusiasm is at an intense pitch in this city and baseball is practically the sole topic of conversation. Bennett park the home of the Detroit team, is in perfect condition, and indications are that it will be filled with a record-breaking crowd when play is called at 2 o'clock.

The Chicago National league team, second Captain Manager Franz Chance, are in perfect condition for the game. Captain Chance was struck in the throat by a rowdy while leaving the field after Thursday's game in New York and the blow injured a cartilage in his throat and affected his vocal chords so that he can barely speak above a whisper. While annoying, the injury will not prevent the Chicago leader from taking his place at first base this afternoon. Immediately upon his arrival here Captain Chance called in a throat specialist.

CELEBRATION ENDS.

Philadelphia Founders' Week Closes With Brilliant Event.

PHILADELPHIA, Oct. 10.—(Special.)—The wildest dream of the promoters of the Founders' Week celebration have been surpassed by the realization. No festival, no great gathering held in Philadelphia since the Centennial Exposition in 1876, has in any way been the peer of the celebration, which concludes tonight with a final grand illumination of the city. Every detail of the week's program has been carried out with clock-like regularity. Every citizen seems to have contributed as far as possible to the success of the affair.

Today was given over almost wholly to the athletic events on the program. The included automobile races in Fair mount Park, track and field events at the Philadelphia ball park and a national rowing regatta on the Schuylkill. Another feature of the day was a parade and field exercises of the Knights Templar of Pennsylvania.

EVERY OVEN IN BLAST.

Plant of Latrobe Coal Company Resumes in Earnest.

LATROBE, Oct. 10.—At the plant of the Latrobe Coal Company, located to the west of town, the work of firing up ovens was completed yesterday, and the plant is now going to its full capacity, 120 ovens being in blast. The outlook is most promising for this plant, the indications being that it will be kept going on full time to the balance of the year. Conditions are improving at the other plants in the local region, and the assertion is warranted that conditions are nearly as good, with nearly as many men employed at the plants, as they were a year ago.

News Forecast of Coming Week.

WASHINGTON, D. C., Oct. 10.—During the coming week the theater of warfare in the national campaign will be shifted a little farther eastward. New York, Pennsylvania, Ohio and contiguous States will ring with the clamor of the foremost campaign speakers of the republic. In addition to the candidates on the two tickets, the Republicans and Democrats will marshal their best talent for the fray. Among those who will be heard nightly in cities of the East and Middle West are Vice President Fairbanks, Senator Beveridge, former Secretary of the Treasury Leslie M. Shaw, Senator Gore, Senator Daniel, Senator Borah and Governor Hughes.

The reception of the American fleet at Yokohama at the end of the week will be an event to attract international attention. The visit of the fleet will be marked by one of the most elaborate demonstrations of its kind ever given in Japan.

Mount St. Mary's College, the second oldest of the Catholic Colleges in the United States, will celebrate its centennial. Noteworthy and unusual features of the celebration will be the annual convention of the National League of Women in Suffrage, Association of the National Association of St. Andrew in Milwaukee, the National League of American Sportsmen at Lawrence, Kan., the National Association of American Physicians in Chicago, the Association of American Surgeons in Atlanta, the American Red Cross and International Railway Association at Atlantic City and the American Board of Commissioners for Foreign Missions in Brooklyn.

Seats at the theatre.

MEN CURED OR NO PAY

Many men have told me, after I cured them, that they hesitated at first to come on account of never having received relief elsewhere, and they had almost become so skeptical as to think there was no cure for them. I am now offering them an opportunity to test my method, and I am sure, if there is any doubt about the cure, it will be removed by my method, provided the patient is sincere and reliable.

NO CURE, NO PAY—My patients receive a written contract, guaranteed by a bank deposit, which assures every patient of absolutely "no pay unless cured," and money refunded in case I fail to cure and render satisfaction. Call or write.

I CURE ALL DISEASES PECULIAR TO MEN.

Varicocele, causing a decline in one's health, cure permanently; no cutting, no tying of the cord, no pain, no danger, no expense, no trouble, no delay, no loss of time, no loss of work, no loss of money, no loss of honor, no loss of respect, no loss of friends, no loss of family, no loss of life.

Drains, causing a decline in one's health, cure permanently; no cutting, no tying of the cord, no pain, no danger, no expense, no trouble, no delay, no loss of time, no loss of work, no loss of money, no loss of honor, no loss of respect, no loss of friends, no loss of family, no loss of life.

Stricture, causing a decline in one's health, cure permanently; no cutting, no tying of the cord, no pain, no danger, no expense, no trouble, no delay, no loss of time, no loss of work, no loss of money, no loss of honor, no loss of respect, no loss of friends, no loss of family, no loss of life.

Blood poisoning, causing a decline in one's health, cure permanently; no cutting, no tying of the cord, no pain, no danger, no expense, no trouble, no delay, no loss of time, no loss of work, no loss of money, no loss of honor, no loss of respect, no loss of friends, no loss of family, no loss of life.

Prostatic, causing a decline in one's health, cure permanently; no cutting, no tying of the cord, no pain, no danger, no expense, no trouble, no delay, no loss of time, no loss of work, no loss of money, no loss of honor, no loss of respect, no loss of friends, no loss of family, no loss of life.

Hydrocele, causing a decline in one's health, cure permanently; no cutting, no tying of the cord, no pain, no danger, no expense, no trouble, no delay, no loss of time, no loss of work, no loss of money, no loss of honor, no loss of respect, no loss of friends, no loss of family, no loss of life.

Inflammation, causing a decline in one's health, cure permanently; no cutting, no tying of the cord, no pain, no danger, no expense, no trouble, no delay, no loss of time, no loss of work, no loss of money, no loss of honor, no loss of respect, no loss of friends, no loss of family, no loss of life.

WRIGHT-METZLER COMPANY.

LEADING RETAILING ESTABLISHMENT OF FAYETTE COUNTY.

Our Entire 2nd Floor is Devoted to the Exclusive Display of Women's Apparel.

And is the Largest Exclusive Store of Its Kind in this Section.

When you come up to our second floor you enter the best equipped, the biggest and most comprehensive women's store in this county, but the scope of this spacious department comprehends but half of our garment and millinery store. We operate under the same management another store fully as large in Uniontown, all of the merchandise for both of these stores is bought by one group of buyers, gaining wonderful price advantages and little additional style touches which have gone far in establishing the wonderful volume of business we enjoy. It's the store that offers the best values. Nowadays that gets the bulk of business. We're prepared to prove our value-giving supremacy in no uncertain manner. We direct your attention to the suits we are selling at \$18 in substantiation of the above claims.

You'll wonder at the superbly tailored suits we're showing at \$18. These suits are tailored from the most stylish of new suitings, worsteds and chevron weaves with semi-fitting jackets, smartly trimmed with large buttons, silk, satin or worsted braids, following the directoire modes. The skirts are gored circular models with directoire effect at side. These are also trimmed with buttons and braids; jackets are full satin lined and the tailoring of each garment is of a distinctly high order. You'll not wonder at our enthusiasm when you see them as they far surpass any suits at this price we have seen. The styles are too varied to admit of individual description.

\$18.00

Dress in the Warm Glow of a Cheerful Fire.

THE BEST OF GAS HEATERS ARE VERY INEXPENSIVE HERE.

The chill and shock received upon jumping out of a warm bed into a cold room is responsible for much of the sickness resultant from "colds," and even though you don't "catch a cold," there is a lot of comfort in dressing in a warm room. Here are the best gas heaters made, heaters that are slightly durable and that radiate an intense heat; perfect combustion does away with all odor and you get what you're looking for "in lot of heat at little expense" cool nights, cold mornings, warm through the day, that's fall weather, too hot to start the furnace—a gas heater answers the purpose.

Upright Gas Mantles 8c

We guarantee these mantles to give a clear white brilliant light. They are mantles that really radiate heat and the construction of the holder is absolutely perfect. It is from the inner core to which it is often subjected, it is a mantle at a CASEMENT STORE.

10-4 Sheeting at 23c

BLEACHED OR UNBLEACHED

These sheetings are in the best quality, but we bought them in a big quantity and divided them between our two stores. 2-4 is the lowest price ever seen on good quality of wide sheeting in many prices. It represents a saving of 10c a yard.

Plenty of Warm Bed Coverings at Little Prices.

ALL OF THEM MADE IN SANITARY FACTORIES

of almost importance to you is that little sentence "made in a sanitary factory," especially in the buying of bed coverings. The coverings we offer are all bought directly from the maker. Our buyers visit the factory. He sees just where and how they're made. He knows exactly what the "filling" of the comfortables are. He knows how thoroughly they're washed and how clean the conditions surrounding the making of them all. They cost you no more here than elsewhere and you know positively that you do not risk the health of your family by the purchase of bed coverings made in uncleanly sweat shops where prevention against disease is unknown.

The Crawford Shoes for Men

A toe that won't break down, leathers that have been subjected to closest scrutiny, made by a concern nearly half a century old, designed by the highest priced experts in the shoe world today. That's why Crawford's wear. That's why the styles are so different from the ordinary.

That's why you pass more Crawford's on the street than any other, one make. There is a Crawford style for every critical man and nearly every critical man wears a Crawford. Be particular when you buy your shoe. Have them fit you perfectly and your ankle snugly, a shoe ought to fit like a glove—Crawford's do.

Exclusive Millinery

\$10.00

A Surprising Array of Distinctive Hats at this Price.

Hats at this price are shown in felt and fabric covered shapes, shapes of a large and the elegant, consisting largely of fancy feathers and wigs with satin or velvet lined as a compelling garment. Satin covered shapes, in present, form the most popular models. These are shown in all of the modish colorings, handsome and distinctively trimmed. There are many velvet shapes shown also at this price. This is a collection that is commanding enthusiastic commendation from every woman who views it, due to the many exclusive features embodied in every hat. They are the product of a hand work and amply attest the source of their origin.

Handsome New Voile Skirts

Gored circular and pleated models, in black voile skirts, and voile still seems to hold indisputable sway in the skirt world. Skirts this season are more diversified in style than formerly. Directoire modes have given the designer more latitude and the outcome is a presentation of styles and adaptation from directoire models that is refreshing in its diversity. More or less elaboration is to be found in the designing of even these black skirts. Large crocheted buttons and bands of taffeta, others are self-trimmed in a like manner. Every model features a style innovation that relegates the skirt you have to the old clothes bag. You'll realize how radical has been the fashion change when we show you some of the new and striking models that embody all of the new features of skirt construction.
